

Foundation Repair Requirements

General Information

A permit is required for ALL foundation repair. Such repairs are required to be designed by a Professional Engineer. If a contractor is used, that contractor must be registered in the City of Aurora.

Plans submittal requirements

A plan with dimensions indicating how the structure will be repaired and indicating the location of piers being added is required. Plans shall be signed and sealed by a Professional Engineer registered in the State of Texas.

The following is a general outline of the drawings necessary for plan review (Building Inspection may request additional information if necessary).

1. Foundation plans must include location of piers or footings.
2. Foundation details (complete details for all piers or footings).
3. Engineer's letter.

Inspections

An inspection will be required upon completion of work. Once the work is complete, the contractor shall request a final inspection.

Fees and Applications

A permit fee in the amount of \$85 is required, the above documents must be completed and submitted to Building Inspections at Aurora City Hall, 303 Derting Road Aurora Texas. Building Inspections can be contacted at 817.636.2783 for additional information
